## Antioch's economy is discussed by local money-men

by GLORIA DAVIS

"The average Antioch resident has fared better than, or at the least the same as, residents of like areas during the present economic crisis," reports First National Bank of Antioch President Pete Clevon, giving his opinion on the local economic situation.

Also in Clevon's opinion, this is largely due to "the broad employment base" of the people of Antioch, which does not allow the

closing or job cut-backs of one business to have a serious impact on the local job situation.

Andy Bernhardt, executive vice-president of the State Bank of Antioch, on the other hand says that he feels that the jobs lost by the problems of such big businesses as American Motors, Kenosha, Outboard Marine and Johnson Motors, both in Waukegan, have showed a noticeable effect on the local economy.

Bernhardt also says that, though the overall gross of the retail businesses in Antioch is down during the last year, some local retailers are doing extremely well.

The Antioch Village Board reported a retail business drop indicated by the lower sales tax intake.

The drop in sales is even more significant since the total sales are based on inflated prices. Because it's still lower than previous years, this is indicative of a lower volume of sales.

Both men stressed that Antioch's present economic picture is much like the national one, with the building and automotive industries predominating on the negative side.

Antioch has had little commercial building and no residential starts in the last year.

According to Bernhardt, a large reason for the dimmer business outlook in Antioch is the fact that the automobile dealerships in the village and township have for years comprised a large part of the retail sales. Ergo, when cars aren't selling, total area retail sales figures suffer.

With the savings and loan industry predominately dependant on housing starts, Laddie Korecek, vice-president Antioch Savings and Loan, says, "Antioch residents, like those in other areas, are interest rate sensitive, a factor in the business presently being done by the Antioch Savings and Loan as well as other financial institutions. The result is that there is little action in loans for housing starts and home improvements," says Korecek.

Naturally all three men agree that businesses, especially those geared to large purchases, like those produced by the automotive and construction communities, will show appreciable increases if and when interest rates go into a steady decline.

Korecek is confident that this is what the immediate future holds, saying, "With the expectation that the interest rates will continue to fall, Antioch Savings believes that home and auto interest rates will soon return to affordable levels."

Clevon agrees that this is the ideal

CROWNS FIRST MR. ACHS — After an entertaining male beauty contest, Miss Antioch, Michelle Patts, left, crowned Mr. ACHS, Cliff Moseley, after the Antioch High School Student Council sponsored the first male beauty contest in the school's history, on Wednesday, Oct. 14. Event was so successful it may be an annual event just like the Miss Antioch Contest. — Photo by Gloria Davis.

## Judges name Cliff Moseley in Mr. ACHS beauty contest

by GLORIA DAVIS

Leave it to the students of Antioch High School to come up with something different. Shades of ERA, with the help of their feminine counterparts, the ACHS males invaded one of the most hallowed female sanctums when the student council sponsored the first Mr. ACHS Male Beauty Pageant, on Wednesday, Oct. 14, at the high school.

I said that this was the first, but after seeing the response of the audience that crowded the gymnasium and hearing the pleased comments floating around town afterward, this promises to become an annual event.

The members of the ACHS Student Council that worked on this project, planned in conjunction with homecoming week, evidently went all-out, judging from the enthusiastic response, participation and the scope of the event.

Twenty-three male students and one teacher entered, what was a most entertaining pageant. The kids really did this one up right, complete with tuxedo-clad mistresses of ceremonies, DeDe DeGrado and Wendy Barth.

The Miss America Pageant has nothing on this one, since it too had all the important

ingredients, bathing suit competition, talent show, and evening dress competition.

When the field was narrowed down by the judges, Connie Ryan Watkins, Sandy Siegmeyer, Dixie Sparks, Leslie Church and Glenda Tomasetik, to five finalists, each of them was asked a question, whose answer counted on the final vote tabulation.

Cliff Moseley was crowned Mr. ACHS 1981 by this year's Miss Antioch, Michelle Patts. The two-way tie for first runner-up was broken by having both contestants answer one more question resulting in Kevin Tuley being named first runner-up and Jim Kempher coming in as second runner-up.

Shane Stolarik received the Mr. Sex Appeal Banner and Douglas Johnson, business ed teacher, was named Mr. Congeniality.

Standouts in the talent contest were Jim Kempher and Cliff Moseley and their rendition of the "Blue Brothers," which drew a standing ovation from the audience.

Jeff Kempher, also one of the five finalists, and Kevin Tuley showed great originality with their version of "Short People."

And I don't think that Dan Berkleys "macho" pom pon girl, Ed Jorgensen's cheerleader, Pat Simon's ballet dancer or John Lloyd's belly dancer, will be soon forgotten.

# Court possibility in game room dispute

Although the Antioch Village Board listed improper zoning as the reason for the 6-0 negative vote on the plans that Chester Dubas had submitted for the building of a game room in the basement of his Ben Franklin Store, the overtones of the discussion at the Oct. 5 board meeting may have pegged the real reason for the refusal.

Smoking, swearing, loitering and underage drinking were among the fears voiced by board members and Police Chief Chuck Miller.

But Dubas has accused the board of being misinformed when they state that he is improperly zoned for the electronic venture, citing the reference made to the game room being a primary use.

The retail merchant claims that his department store is the primary use of the building and the game room would be incidental use

since it will only occupy three percent of the building's total area.

Using the fact that "family oriented" Sears Roebuck and Co. support an electronic game location, Dubas added that the plans for the 1,200 square foot game center include paneled walls, carpeted floors and an array of sit-down and stand-up electronic games for the entertainment of the entire family.

He also promises to have the room constantly supervised so that parents can let their children play the games when they are shopping in the store upstairs.

At the Oct. 5 meeting Village Attorney Ken Clark warned the board that they might face legal action because of their refusal "since there's big money in this." And that's exactly what Dubas says he's prepared to do if the board continues to deny him the game room license he has applied for.

Antioch resident Dan DeFosse has announced that he will seek election to the congressional seat held by Congressman Robert McClory.

DeFosse said he will be running as a candidate in the Democratic primary in March. McClory is seeking reelection as a Republican and is being challenged by George Kangas, Lake County Republican Central Committee chairman.

No other candidates have announced an interest as yet for the Democratic party.

DeFosse said he is a "working man's candidate" who is running to "give people a choice."

"This is a no promises campaign," said DeFosse. "But it's a working man's campaign from the ground up."

"I want to get in there and find out what's going on. I'm

tired of the double talk from Washington and our Congressman, although I do have some respect for him (McClory)," he said.

"Our representatives are voting the way the lobbies tell them to vote and the working man doesn't have a lobby."

DeFosse said he's not anti-business. "They have questions that aren't being answered just like everyone else," he said.

DeFosse has lived in Antioch for six months. He lived in Waukegan before that and prior to living in Waukegan lived in Antioch for 10 years.

He is employed a Cherry Electric, Waukegan, as foreman of the screw machine department; is president of the Lake County Management Assn. and treasurer of the Midwest International Management

Assn.

DeFosse said he is just beginning to put together a campaign organization, made up of people "just like myself."

## The Time Machine

50 YEARS AGO: OCTOBER 22, 1931

A new national party came into official being Monday night when a large number of enthusiasts from Lake and McHenry counties met at the Karcher hotel and organized the National Taxpayers party.

Radios, automobiles, movies, airplanes, all ministering to man's comforts and needs and yet the world is no happier than it was seventy-five years ago. So declares A.J. Feller, retired farmer and only Civil war veteran in Antioch.

Plans are going forward rapidly for the organization of a municipal band in Antioch. Forty application blanks have already been turned in and it is expected more are forthcoming.

Announcement was made this morning from the office of Principal L.O. Bright, of the Antioch Township High School, that Bernice Jensen leads the school in scholarship for the first six weeks of the school year.

Clyde McCoy and his dance of radio fame are coming to the Valencia ballroom Saturday night. McCoy is the originator of "Sugar Blues," a popular dance number that swept that swept the country a few weeks ago.

30 YEARS AGO: OCTOBER 25, 1951

Deputy Sheriff Alfred Götting of Kenosha county left yesterday for Sparks, Nev. to bring Ray Morton of Wilmot, Wis. back to answer a charge of abandoning his wife and three children. Sparks claims he had been abducted for doing non-union tile laying, and had been held captive during a two-week cross country tour and was finally released in Sparks after his abductors decided not to kill him. "I've learned my lesson now, I'll never lay another piece of tile as long as I live," Morton was quoted as saying.

Burglars who cracked a safe at the Willowdale Dairy, 755 Corona St., Saturday night, got but \$35 for their efforts, a small sum for professionals in these days of inflation.

The Pep club of the Antioch Township High School was organized Monday morning under the sponsorship of Miss Mary Donovan. The officers are Ann McMillen, president; Margie Haling, vice-president; Mary Ann Nielsen, secretary; Aleeta Ring, treasurer; and Nancy Vance, chief rooter. They will have a float in the parade.

10 YEARS AGO: OCTOBER 20, 1971

The only disappointing part of homecoming was the football game itself. Unfortunately our Sequoits were not able to handle those Warren Blue Devils as they got beaten pretty badly by them. Mary Wiczorek and Chip Gross crowned the new King and Queen, Randi Franke and Jim Mihovolovich at the dance. Those in the court included: Julie Ellis, Sharon Hall, John Mihovolovich, Ken Tell, Linda Withner, Barb Sanders, Bob Hunter, Glen Amundsen, Robin Ellis and Mike Perone.

Mike Harvey, president of the junior class, received a \$50 Bond from Mr. John Roach. The award was given to the Junior Class as a whole for picking the award winning theme "World of Disney" for homecoming.

Mary Ellen Osmond of Antioch has been selected as one of the five finalist for the 1971 Homecoming queen title at Western Illinois.

Carole reports:

## Carole talks to area school superintendents

by CAROLE RISKA

Dr. Donald Skidmore, superintendent of Antioch Grade School District 34 said the guidelines for school lunch programs in District 34 will remain the same. Skidmore said that the Reagan administration proposed guidelines for elementary schools are "ridiculous."

One of the programs that the federal government is considering cutting back on is the subsidized lunch program. In other words local school districts will be getting less federal money to help pay for their lunch program, so the federal budget cutters have proposed lowering the minimum allowable size of a lunch by lowering the nutritional requirements.

Dr. Skidmore said that under the new guidelines proposed by Reagan Administration for the elementary school lunch would have a reduced mid-day meal.

The present two ounces of meat would be reduced to

one and one half ounces; to one and one half slices of bread, to one slice; eight ounces of milk to 60 ounces. The plan would allow alternatives to meat and vegetables, stating that a catsup-like concentrate would qualify as an vegetable, if it was served with a portion of another vegetable.

In other words, an order of fries with ketchup on the side and a one and one half ounce hamburger, with one slice of bread, would be called a hot lunch.

Dr. Skidmore said that the District 34 lunch program is breaking even and there is no reason to consider adopting these cost-cutting measures.

Skidmore added that District 34 is now buying hamburger patties six to a pound, which is over the minimum requirement now. They will continue to offer elementary school children more than adequate lunches.

Warren Polley, superin-

tendent of Antioch High School District 17 said that there were no plans to cut back at the high school level on the lunch program.

He reports that he does not see any reason for any reductions of school lunch standards in the foreseeable future.

Polley also said that the delay in the construction of the new sports fields at Grass Lake Rd. and Deep Lake Rd. has partly been due to the strike of heavy equipment engineers, Local 150, and partly to the bad weather.

When asked if Antioch High School is possibly overestimating its need for the sports fields, Polley said "No, as of right now there are eight boys' sports programs and nine girls' sports programs," he added that the high school athletes are being bussed to other schools now because of lack of facilities at Antioch High School because the existing field is just not adequate.

## Self Analysis ACHS to be evaluated

Antioch Community High School initiated a North Central Association (NCA) evaluation program.

Principal Art Blecke explained that, "Antioch Community High School was last evaluated in 1975. The NCA requires each member school to undertake a comprehensive evaluation once during each seven-year cycle as a major impetus for school improvement."

He then described the phases of the evaluation: "First we shall analyze the school's community and determine precisely what are the school's governing goals and purposes. Then we shall study our program and procedures to see how successfully we are meeting those goals."

"During the evaluation, every aspect of the school will be reviewed, all subject matter areas, student activities, personnel services, health services, instructional materials, staff physical facilities, financial

support and control," he adds.

"The evaluation will result in suggestions for those modifications and changes that will help the school do an even better job of educating our students," Blecke said.

Principal Art Blecke estimates that the total self-evaluation will take from 12 to 15 months. Faculty reports from the various subcommittees will summarize the respective strengths and weaknesses of each segment of the school.

Each of these reports will then be discussed by the total faculty. The final self-appraisal will be of the school as a whole.

To impart additional objectivity to the process, the school will then be visited by a committee of educators from outside the district. These educators who volunteer their time and services are teachers and administrators from other NCA schools, university personnel and representatives from the Illinois Office of Education.

During their visit, the committee members will confer with students, teachers and parents; will observe the teaching/learning process; will study the materials the school has prepared in its self-study.

The committee's report will offer its conclusions regarding the strengths and limitations of the school as a whole and its various components.

Principal Blecke said that in the third phase of the process there then begins "the most important phase of the entire process. This is the time when the staff reviews and analyzes the recommendations contained in both the self-study and the committee report, agrees on the areas of the program

needing strengthening and devises a schedule of planned steps that will implement the needed improvements."

He summarized by saying, "The evaluation process involves a great deal of work by many people, but the rewards are equally great."

The NCA, the nation's largest regional accrediting agency, is a voluntary association of over 5,000 schools, colleges and universities in a 19-state region. Its members seek to improve the quality of education at all levels through a program of accreditation and evaluation.

## Berning quitting after 16 years

Senator Karl Berning (R-Deerfield), announced he will not seek re-election to the Illinois General Assembly in 1982. "When the 82nd General Assembly comes to an end next year, I will have served in the Senate for 16 years," Berning said.

Senator Berning was first elected to public office in 1946 to fill the unexpired term as Township Constable and re-elected to the same office in 1949.

"At this point in my life," said Senator Berning, "I want to spend some time on the golf course and spend a great deal more time with my family — particularly my grandchildren."

"The new redistricting map drawn up by the Democrats has nothing to do with my retirement. I'm confident that, if I decided to seek office again, I would be re-elected. However, I'm very disenchanted with the blatant gerrymandering by the Democrats. The maps they have drawn are indefensible and the way they

stand now precludes a Republican majority in the Legislature for the next 10 years.

"I have slightly more than a year to serve in the General Assembly. I will continue to work for the people of the 32nd Legislative District and the people of the State just as I have for the past 15 years. For those who have questions, comments or suggestions about pending or future legislation I urge them to continue to contact me just as they have done in the past," Senator Berning said.

## When I think about it Whole family faces weighty problem

by GLORIA DAVIS

After a pleasant, food-filled Sunday afternoon, the members of my family sat across from each other contentedly overstuffed, the adjective overstuffed referring to the people and not the chairs that they were sitting in.

Maybe it was the two bottles of wine that we consumed with dinner or maybe it was the position of the moon, but teasing remarks dropped casually triggered a session of "To Tell the Truth."

The truth in this case being that each of us had been studying the physiognomy of the others, mentally gauging the extra weight that "the others" had packed on during this last free-eating, free-drinking summer.

A little chiding here and there soon had us all admitting that we had all become victims of a "fat attack."

Our symptoms schynorized exactly: a rash of stripped zippers; feverishly bursting seams; the sensation of buttons popping and

the ache of pinched waistbands.

You know the sick feeling one gets when their blouson dresses no longer blouse; when the numbers on the size tag on your new outfit are too close to your age for comfort; when you look heavy in your most slenderizing skirt and it's hard to tell whether your standing sideways or frontwards; when the reflection you accidentally catch as you're passing a store window resembles a post-"Poseidon Adventure" Shelley Winters.

Then some low-life, the only thin member of our family whose name I won't mention for their own protection, whipped out a tape measure and a scale and we had no choice but to join in the "True Confessions" of a glutton.

In a unanimous vote, we all decided that we would rely on warm clothing for our winter insulation, preferably two sizes smaller, and that action had to be taken before the usual holiday pounds put us at the point of no return.

The pounds and inches were put down in shocking black and white after we finally admitted that only people, not scales, were crazy, and that the tape measure we were using was scaled in inches and not meters.

We decided that although our evident obesity was wide-spread, joining the local pound peepers club wouldn't spread us thin enough, so being avid believers in the strength and the sanctity of the family, we agreed that a family that diets together, sticks together through thick to thin.

We set our weight and size goals and raised our glasses of diet pop to form the formation of "Family Fat Anonymous."

It will be no more "pigging out" for the Davis family and even President Reagan would have been proud of our pledged food cutbacks.

So each of us has started our vitamin conscious diets, geared to what each of us thinks they can handle. Deciding to take it a day at a time, we plan to check with each other every evening, talk about our calorie counting triumphs or our starchy set-backs of the day, cheering each other on to a slim slick victory.

We also intend to check in and out by phone, three times a week, after each private hour-long exercise session.

Taking it a leg and a hip at a time, we've set the day before Thanksgiving for our first weigh-in, allowing ourselves to be stuffed as full as Tom Turkey the day afterwards.

Then back onto starvation trail and hopefully come Christmas, we'll happily celebrate without a real-life Santa, since we'll all be too thin for the part.

# Economy discussed by local money-men

(Continued from Page 1)

economic situation but when it comes to predictions adds, "I'm no genius, there are too many intangibles."

Bernhardt says that he expects a "hard winter, a better summer, and a softening in the economy but no real dramatic changes."

All three men say that the day of the long-term low interest rate mortgage is a thing of the past, predicting a move towards the building of smaller homes, multiple housing, such purchases often coming later in marriage than has been the case during the recent boom years when many young couples were able to afford homes.

The drop in low-down payment VA loans is among the factors causing this change.

All three financial institutions are offering those who wish to save for the down payment on a house, higher interest rate incentives.

Cleven says, "Although the high interest rates and high cost of automobiles will keep

many from the every-year trade in, eventually the cars now being driven will wear out and car sales will pick up."

The lowering of car prices being a necessity was pointed out.

"People also have to have a place to live so many people will have to gamble on the short term mortgages whose interest rates might raise inside of three years," says Cleven.

At least the gamble that the ability to make monthly house payments could result in equity in a house, while the renter will still have to gamble that he will be able to afford his rent inside of three years with the landlord being apt to raise the rent because of the rise in his costs. The renter ending up with stacks of receipts in either case.

Bernhardt stresses that the biggest change in the overall financial scene is that the saver now has a greater choice in ways to make money on his savings, the interest rates of which are higher now than ever before in history.

He adds that since it is now "a savers' market" the borrower will have to pay higher interest rates to balance the high interest rates being paid the saver and investor.

Cleven pointed out that Antioch has had little growth since 1978. Both Cleven and Bernhardt stressed the need to bring industry in to town.

Cleven added that the local building in-

dustry must supply affordable housing for that incoming industry.

Both added that the increase in buying power brought in by this industry would increase the local retail sales.

"The good news is," says Bernhardt, "both Chicago and Milwaukee are growing this way and it makes sense that the greatest growth will be south of the Wisconsin-Illinois border because of the present tax structure."

## Barrett achieves recognition

In recognition of outstanding academic achievement, 19 percent graduated of the University of Oklahoma College of Law, including Robert M. Barrett of Antioch, have been included into the Oklahoma chapter of the Order of the Coif.

Induction into the order is the top academic honor that can be bestowed on law students, said Elbridge D. Phelps, a David Ross Boyd professor of law at OU and secretary of the Oklahoma chapter.

"Election of student mem-

bers is restricted to the top 10 percent academically of each senior class, provided that 75 percent of the student's work has been taken in graded courses," he said.

Founded in 1911, the order now has 59 chapters located at better law schools throughout the country, Phelps said. "Standards for admission of new schools are rigorous." The law school of the College of William and Mary in Williamsburg, Va., became the newest chapter when it was accepted for membership this year.

Students recently inducted into the order were members of classes graduating from OU law school in August and December of 1980 and May of 1981.

The new members of the order were honored Friday, Oct. 2, at the Chapter's annual dinner and initiation in Norman.

### INFLATION

According to Antioch High School Business Manager Ken Wierschem, the 10 percent increase in the high school budget is caused by inflation.

# Sequoits fete homecoming topping Patriots 13-0

by GLORIA DAVIS

It was a great homecoming despite the rainy weather for the Antioch Sequoit varsity football team, with Antioch topping the Stevenson Patriots 13-0, on Saturday, Oct. 17.

In the first quarter, quarterback Scott Poulter completed a pass to Bob Thain who took the ball for 47 yds. for the first touchdown. Derek Olsen's kick put An-

tioch on the scoreboard 7-0.

The Sequoit's only other touchdown came in the second quarter when George Bessette took the pigskin for 48 yds., making it Antioch 13, Stevenson 0.

The scoreboard was done rolling for the rest of the game with neither team able to get a good drive going during the second half.

Bessette had 11 carries for 68 yds. Mike Kottlinski carried nine times, gaining 25 yds.

Thain caught three passes, running for 62 yds.

Poulter marked down three completions in eight attempts, gaining 52 yds. and Tom Adams had one completion in four attempts for nine yds.

Even though the second half of the game was uneventful, the Sequoits predominated on the field throughout the game, never allowing the Patriots to cross the 50 yd. line.

Antioch Coach Steve Wapon said, "Our offense played well gaining 153 yards which is a respectable amount and our line blocking is improving with each game."

## Golfer's season finishes

The "Monday Night Golfers" finished the 1981 season on Sept. 29 with a banquet at Andres in Richmond.

Trophies were presented to the top three finishers in each flight. Winners of "A" Flight were: first place, Mary Ann Kaht, second place, Chris Coolidge and third place, Shirley Gutowski.

Winners of "B" Flight were: first place, Dianne Periman, second place, Barb Gesiakowski and third place, Vi Walsh.

Low games for the season were 44 by Jackie Voss and 45 by Jackie Vos and Chris Coolidge.

League officers for the 1981 season were: Co-Chairpersons, Gerri Amundsen and Shirley Gutowski; Treasurer, Diane Periman; Handicapper, Jean Rockow; Publicity, Chris Coolidge; and Rules/By-Laws, Carolyn Blanchette and Chris Coolidge.

Wapon also commented on "a most spirited pep rally that involved everyone."

He added that he thought that all that support carried over into the game.

The Sequoits, who now are tied with Warren alone for the Northwest Suburban Conference lead with a 4-0 record, will meet the Round Lake Panthers on their home ground on Saturday, Oct. 24.

Wapon said that Saturday's conditions will dictate

the game strategy. He added that he had the utmost respect for the Round Lake Panthers.

"The Sequoits will try and do

what we do well," says Wapon.

Defensive coordinator Ted DeRousse said that he thought that the pressure

would be more on Round Lake for the upcoming game because they have to win this one to stay in the conference race.

Children from families whose income is at or below the levels shown are eligible for free meals or reduced price meals.

Application forms are being sent to all homes in a letter to parents. Additional copies are available at the principal's office in each school. The information provided on the application is confidential and will be used only for the purpose of determining eligibility.

Applications may be submitted at any time during the year. To discourage the possibility of misrepresentation, the application forms contain a statement above the space for signature certifying that all information furnished in the application is true and correct.

An additional statement is added to warn that the application is being made in connection with the receipt of Federal funds, that school officials may, for cause, verify the information in the application, and that deliberate misrepresentation of information may subject the applicant to prosecution under applicable state and criminal statutes.

In certain cases foster children are also eligible for these benefits. If a family has foster children living with them and wishes to apply for free or reduced price meals for them, the family should contact the school.

If a family member becomes unemployed or if family size changes, the family should contact the school to file a new application.

All children are treated the same regardless of ability to pay. In the operation of child nutrition programs, no child will be discriminated against because of his/her race, sex, color or national origin.

Under the provisions of the policy, Sr. Mary Roche, OP, principal of St. Peter School, will review applications and determine eligibility.

If a parent is dissatisfied with the ruling of the official, he/she may wish to discuss the decision with the determining official on an informal basis.

If he/she wishes to make a formal appeal, he/she may make a request either orally or in writing to Mr. Thomas Merkel, 24725 W. Beach Gr. Rd., Antioch, IL 60002 or call him at (312) 395-5344 for a hearing to appeal the decision. The policy contains an outline of the hearing procedure.
